

**passerelle** *by Sebastian Herkner*

*The design of Passerelle is based on the glass profiles which are known from the architecture. These profiles are fitted in a simple and straight metal construction. Passerelle is the name of the pedestrian bridges Venetians are using during high tide.*

# passerelle 100 + passerelle 160 by Sebastian Herkner | SHELVES

## ART. NR

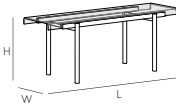

9600S

## COLOUR

SHELF transparent
