

rl by Sebastian Herkner

Sebastian Herkner explores a new atmosphere with RL, a streamlined light driven by functionality. Composed of a long LED bulb and a classic U shape in textured aluminium, it is the perfect balance between industrial and elegance. RL1 adds a pendant light in the pulpo collection, and RL2 makes a nice addition to the already existing floor lamps, Oda and Boule.

ART. NR

9000B
9000CHRB

COLOUR

REFLECTOR
silver
silver

BASE
black
black chrome plated

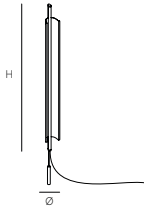

MATERIAL

BODY
steel, powder coated or chrome plated

CABLE
textile, 4000 mm with foot dimmer
AC adapter + Euro-plug
Input: 100-240 Volt 0,5 A max
50/60 Hz
Output: 24 Volt 0,625 A

REFLECTOR
textured aluminium

BULB
12 Volt/Vdc approx. 12 Watt 750 lm/m
60 Leds/m tube warm white

DIMENSIONS mm

1220 H x 120 Ø
