

**simple light** *by Harry Tbaler*

*Simple Light is a modern table light made out of limestone and brass. A simple shape created by two cylinders which transforms the hard material into an elegant object. Harry Thaler developed the project in the context of FROM-TO, a collaboration between Venetian craftsmen and international designers. A simple item of design.*

**pulpo** Simple Light  
3100B

This luminaire is compatible with bulbs of the energy classes:

The luminaire is sold with a bulb of the energy class:

874/2012 

Detailed description: The image shows a product label for a 'pulpo Simple Light 3100B'. It features a blue lamp icon in a box. Below this is a vertical energy efficiency scale with categories A++, A+, A, B, C, D, and E. The categories A+, A, B, C, D, and E are crossed out with red diagonal lines. A small lightbulb icon is positioned to the right of the scale. At the bottom, there is a text box stating 'The luminaire is sold with a bulb of the energy class:' followed by a green arrow pointing to 'A+'. The label also includes the number '874/2012' and the European Union flag.
